

VIDEO/ DATA WALL DISPLAY (24x7 Operation) Bigger the screen higher the impact

Video walls are also known as Data walls. Video wall is a multi-monitor or cube set up that display the content by connecting with the external sources like USB, PC, Laptop, CCTV, etc. With LED backlit & LCD technology it offers implausible color depth and contrast quality.

We can use all the cubes to show one single content or can show on the part of the data wall as well.

With our narrow bezels and high-resolution video walls with auto colour and brightness matching mechanism offers farfetched experience & factor to any viewer.

LED Cubes are available in different size. They are reliable & durable amenity to any organization.

Video wall controller is available that helps to spilt & distribute one single image into parts. 10x10 Daisy Chain support is available with Display/DVI.

OPS slot in LED is also available

Product Specifications:

Video data wall display

Model	HT DWD 55
Weight	35 Kg.
Display Technology	LCD
Maintenance	Rear
Operating Temperature	0-55° C
Operating Humidity	90% RH
Operational Hour	24 x 7

Display Colour	16.7 Billion
Light Output of Projection engine	700 Lumens
Panel Technology	IPS
Lamp / Light Source	LED
Life of Light Source	80000 hrs
Diagonal Screen Size	135 cm
Resolution	1920 x 1080 (Horizontal and Vertical)
Bezel to Bezel Width	3.5 mm
Speaker	20W x 2
Aspect Ratio	16:9
Viewing Angle	178 degree
Brightness	700 nits
Static Contrast Ratio	15000:1
Response Time	6 milliseconds
Uniformity of brightness	90% across the screen
Lamp wattage	190 Watt
External Control	RS232, RJ45
Display Port	Available (1 Input, 1 Output)
DVI-I Input Port	Available
DVI-D Output	Available
Analog RGB Input	Available
HDMI Input Port	Available (2 HDMI)
Component Input	Available
Audio Port	Available (1 Input, 1 Output)
VGA Input	Available
USB Port	Available (Integrated USB Multimedia Player)
Power Supply	100-240V
Power Consumption	330 Watt (Operating Mode); 1 Watt (Standby Mode)
Dimension	1216mm (Width) x 688mm (Height) x 110mm (Depth)
Accessories	Power Cord and connecting cables, Remote Control, Data Wall Management Software, Wall Mount data wall structure

Data Wall Controller

PCI Express Slots	Available (2 PCI slots in chassis)
DVI/DP Port	Available (4 Input, 4 Output) Input and Output ports is upgradable as per requirement
Dual Redundant Hot Swappable Power Supply	Available
