hugo
TECHNO

Model: HT EP20Q

Hugo Techno introduces *wheel mounted* Electronic Podium capable of moving in all directions with a locking facility while the podium is in use. Hugo Techno Podium has *steel body and Suitable cooling fans in the lower body* designed to work in suitable environmental conditions.

Top panel is made up of wood and act as a *sliding cover* for easy opening/closing with *key and lock facility*. *Sliding tray* is provided to *keep Laptop, Keyboard and Mouse*.

All the locks fitted in the powder coated steel body has a *single key*. Different podium's key can not be interoperable.

Housing and connectivity for Visual Presenter is available. Drawer can be opened at the time of using the Visualiser.

No port exposed/ visible on the outer body for breakage/mishandling while the podium is locked and not in use.

Built-in highly sensitive Interactive Panel with *adjustable tilt* and a mechanism to make the Panel stable so that it does not shake while writing.

Hugo Techno Electronic Podium provides a *Selection switch to toggle between various sources* for the output on the projection screen through a touch panel.
