Conference Table

Specifications:

U Shape Conference Table	HT-CT-300
Construction	Minifix dowels, pins and MS brackets)
Table Top	25mm thick pre-laminated particle board, grade II of IS 12823, with approved laminate and finish. The worktop is sealed with a 2mm thick thin strip of impermeable PVC that is cut to fit the board panel and pasted using an edge banding machine at 200 degrees Celsius. To prevent scratches on the floor, buffers are provided at the base of the table top to prevent it from being supported by the particle board base at its gable end.
Modesty panel	Table is clad with 18mm thick modesty panels that provide structural support. With appropriate PVC edge banding attached to both ends of the modesty panel, it is made of 18mm thick pre-laminated particle board
Wire carrier	Below the table top, a power connection is provided with the dimensions 60mm X 125mm made from high yield strength CRCA grade D sheet conforming to IS:513 and powder-coated
Standards	ISO 14001, IS 12823 grade II, ISO 9001, ISO 45001 & ISO 50001 along with BIFMA & IGBC membership.
